Spare parts | Maintenance | Technical

Encrusting Machine Type EN103, EN104

July 2013

Dear Agent,

Herewith we would like to inform you, that in future there will be limitation of the availability regarding spare parts for Encrusting Machine Type EN103, EN104. This affects especially the Flow Controller parts. These parts are out of production now. The original material is not available anymore. Therefore please contact your customers with that machines to inform them.

In case that you would like to take the opportunity to consider the purchase of a new Rheon Encrusting Machine, our sales team will be glad to inform you about our advanced technology applications.

Should you have more questions, we are on your disposal under phone: +49 (0) 211 471950 or E-mail: de.mainte@rheon.com or de.sales@rheon.com

With best regards,

Andreas Schaller
